Critical Incident Management Policy

1 INTRODUCTION

The school's mission statement lies at the heart of how we respond to critical incidents which affect the life of the school.

Our Lady's School Mission Statement

Our Lady's School is a community that embraces Christian values. The education it provides is rooted in a deep sense of faith.

We aim to create a positive inclusive environment which enables everyone to reach their full potential. We promote mutual respect within the school community and strive to provide a happy and secure atmosphere which fosters a love of learning.

We encourage the development of the whole person, by fostering the personal, spiritual and moral development of every student. The realisation of individual talents and academic excellence is paramount.

We aim to create a friendly, healthy, safe and caring environment which affirms our pride in the school.

We promote the development of the necessary skills so that students may become responsible members of society. It is our wish to see every student leave Our Lady's School with moral integrity and a heightened sense of social conscience.

1.1 The Critical Incident Management Policy (CIMP)

The OLS critical incident policy is to respond to a critical incident quickly and effectively, minimise the potential negative effects of the incident, care for those affected and effect a return to normal school life as soon as possible. The policy provides a framework within which a critical incident plan is developed for each critical incident as it arises.

1.1.1 The aim of the critical incident management policy (CIMP)

The aim of the CIMP is to help school management and staff to react quickly and effectively in the event of an incident, to help maintain a sense of order and to ensure that appropriate support is offered to students and staff. The policy enables the development of a critical incident management plan appropriate to each specific critical incident.

1.1.2 The critical incident plan

The critical incident plan is the set of actions the school community takes to ensure that the critical incident is managed as well as possible. The plan is developed by the Critical Incident Management Team, led by the team leader, the principal.

Critical Incident Management Policy

Having a good plan should also ensure that the effects of any incident on the students and staff will be minimised. It should help us to effect a return to normality as soon as possible.

Many of these incidents may require an inter-agency response involving the Gardai and the emergency services.

1.2 Contents of This Document

This document contains:

- The definition the critical incidents to which this policy guides the school's response
- The principles behind our creating a coping supportive and caring ethos, providing a foundation to our response to any critical incident,
- The definition of the Critical Incident Management Team (CIMT) roles
- The key responsibilities for each role
- A template for the management of a critical incident including
 - creation of the initial incident plan in response to an incident
 - managing the critical incident to its conclusion
 - a post critical incident review
- Consultation and communications principles behind this document

There are a number of appendices. Appendix 1 provides contact details required for a critical incident. Appendix 2 guidelines for staff in response to a critical incident. Appendices 3 and 4 provide guidelines where critical incidents involve students. Appendix 5 consists of a list from the NEPS guidelines of 2016. These are available from the NEPS website, and on the OLS website, and are made available to the CIMT members. Appendix 6 is an annual checklist for the school management to ensure the policy is current for the school year.

1.3 Development and Maintenance of the CIMP

This Critical Incident Management Policy provides the framework for the response of the school community should such an incident occur. It has been developed based on feedback from the staff, students and parents of Our Lady's School and NEPS.

In drawing up this policy and plan the CIMT has consulted the following resource documents provided to schools:

Responding to Critical Incidents NEPS Guidelines and Resource Materials for Schools (NEPS 2016)

Responding to Critical Incidents resource materials for schools (Dept. of Ed. 2015)

Responding to a Critical Incident Pack for Schools (NEPS 2003)

Critical Incident Management Policy

Responding to Critical Incidents Resource Material for Schools (NEPS 2007)

Guidance on Social Media Use and Critical Incidents (2014)

ASTI Guidelines for Schools On How to respond to sudden unexpected death of a student (2005)

The Well-being in Schools Guidelines (2013, 2015)

Student Support Teams in Post-Primary Schools (2014)

Note: although the 2016 NEPS guidelines focus in critical incidents involving students, in this document OLS considers a wider range of events that would constitute a critical incident for OLS.

1.4 CIMP Policy Document Review and Update

This policy is subject to review every two years by the Board of Management.

- The policy was reviewed and approved by the Board of Management in 2015.
- The policy was reviewed and approved by the Board of Management in April 2017.
- The policy was updated in October 2018
- The next review is due in 2019.

In addition, the policy will be reviewed and updated on foot of any incidents or events which give rise to invoking the policy.

The appendices to this document provide information, procedures and guidelines which support the policy. These appendices should be updated to reflect:

- Changes in names/contact details for the CIMT and third parties
- Changes/developments in support provision best practices.

Any such changes should be notified to the Board, recognising that updating the appendices does not require re-approval of the policy by the Board.

2 DEFINITION OF A CRITICAL INCIDENT

The staff and management of Our Lady's School recognise a critical incident to be an incident or sequence of events which overwhelms the normal coping mechanism of the school and disrupts the normal running of the school. Critical incidents may involve one or more students or staff members, or members of our local community.

Examples of Incidents that could affect schools

- The death of pupils or members of staff through natural causes such as illness, an accident, by a deliberate act of violence or by suicide.
- A fire, flood, explosion or other event that would prevent the normal usage of the school
- Outbreak of communicable illness or disease
- Threat of harm to students, personnel or facilities.
- Use of weapons or explosives in or near the school
- Deaths or injuries on school outings
- Incidents involving children and staff from many schools
- Civil disturbances including terrorism
- An accident or tragedy in the wider community

3 FOUNDATION: THE CREATION OF A COPING, SUPPORTIVE AND CARING ETHOS IN THE SCHOOL

Systems are put in place to help build resilience in both staff and students, thus preparing them to cope with a range of life events. These include measures to address both the physical and psychological safety of the school community.

These systems will therefore form part of the school's response to any critical incident which should arise.

3.1 Physical Safety

Examples include:

- Fire exits and extinguishers are regularly checked and dated
- Regular fire drills occur
- Evacuation plan has been formulated
- School grounds are supervised
- Well maintained building

3.2 Psychological Safety

The management and staff of OLS aim to use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion.

Examples include:

- Pastoral/Form Teacher and Student Support Team in place
- Anti-bullying policy
- Links are developed with a range of external agencies
- Staff attend CPD
- Inputs to students by external providers are carefully considered
- All school staff are encouraged to identify students at risk and to refer them to receive appropriate support
- Involvement in Healthy Schools Promotion
- SPHE classes
- SEN policy
- The Student Council, 6th Year Council and house structure facilitate the student voice and leadership in the school, adding to the safe community.

Critical Incident Management Policy

Record keeping will be monitored by the CIMT Coordinator and retained at the end of the critical incident for the post incident review.

5.12 Confidentiality and Good Name Considerations

The management and staff of OLS have a responsibility to protect the privacy and good name of the people involved in any incident and will be sensitive to the consequences of any public statements. The members of the school staff will bear this in mind, and will seek to ensure that students do so also.

For instance, the term 'suicide' will not be used unless there is solid information that death was due to suicide, and that the family involved consent to its use. The phrases 'tragic death' or 'sudden death' may be used instead. Similarly, the word 'murder' should not be used until it is legally established that a murder was committed. The term 'violent death' may be used instead.

5.13 Critical Incident Rooms

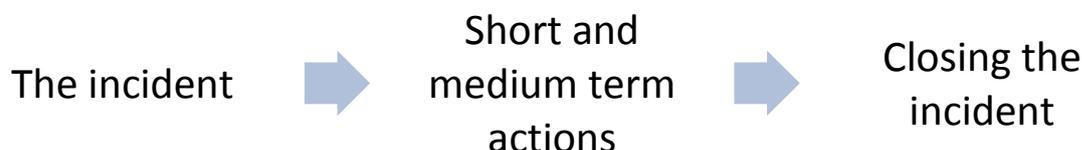

In the event of a critical incident, rooms will be allocated for:

- Staff
- Students
- Parents
- Media
- Individual consultations with students
- Visitors

These rooms are allocated by Team Coordinator. An initial allocation list is available in the appendices.

6 MANAGING THE CRITICAL INCIDENT

This section outlines the approach to managing a critical incident. There are a number of stages.

6.1 Forming the Critical Incident Management Team and creating the initial action plan

The team leader deems an incident to be critical and assembles the Critical Incident Management Team and reviews tasks and allocation of roles.

The CIMT then works to gather facts and accurate information:

- What has happened?
- When it happened?
- How it happened?
- Where did it take place? Is it onsite or offsite?
- Does the incident require the evacuation of the school?
- What is the number and names of students and staff involved?
- Are there other schools involved?
- What is the extent of any injuries?
- What is the location of the incident?

Contact appropriate agencies (see school's Emergency Contact List).

The initial action plan is agreed:

- Allocation of rooms as required.
- Communication to staff, students and parents. The CIMT for a given incident should be made known to the school community as soon as it is formed.
- Record keeping
- Communication with the media (if required).
- Meetings of the CIMT.

Critical Incident Management Policy

6.2 Implementing the CI Action Plan – short and medium term actions

The CIMT meets daily to review the situation and the implementation of the Action Plan. Additional staff are involved as required. Support is arranged for students and staff.

Decisions about school closure are made in conjunction with the Board of Management.

6.3 Conclusion of the critical incident

The team leader determines when the critical incident is closed. The CIMT stands down and normal school life resumes.

7 POST INCIDENT REVIEW

A review of will take place by the school's management of all incidents in relation to which the Critical Incident Management Policy is invoked. This review will take place when the incident is closed but close enough to the incident for the lessons learned still to be fresh. The review is led by the team leader.

The team coordinator completes the first step. This is to document the critical incident, what happened and where, who was involved. Then the actions of the CIMT including any records are noted and the roll out of the incident to the conclusion is summarised.

The purpose of such a review is to learn the lessons of the incident itself, to review the effectiveness of this policy, to review the effectiveness of our response to the incident as measured in relation to the aims set out in section 1 above, and to review the effectiveness of the supports, information, guidelines and procedures available to the school community in relation to dealing with the incident.

The outputs of the review, including any recommendations, will be presented to the Board of Management as soon as available.

8 CONSULTATION AND COMMUNICATION REGARDING THE PLAN

Each member of the standing critical incident team has a personal copy of the plan.

All staff will be informed of the details of the plan on a regular basis.

The plan will be updated annually in September and the Board of Management informed.

The plan will be published on the school website.
