

## School Self Evaluation – A Brief Guide

**School Self Evaluation (SSE)** is a process that schools all over the country are currently engaged in. It is a “collaborative, inclusive, and reflective process of internal school review”.

The process of School Self Evaluation involves gathering information from a range of sources about the quality of teaching and learning in our school, and then making judgements. It culminates in the development of a **School Improvement Plan** which sets targets for improvement in certain areas.

- The guiding framework for the SSE process is *Looking at Our School 2016, A Quality Framework for Post-Primary Schools*.
- This is the document that guides schools in the SSE process
- The ultimate purpose of SSE is to improve the quality of learning in our schools.
